VOLUME 41 NO. 34

Authorized as second class mail. GLEICHEN, ALBERTA, WEDNESDAY NOVEMBER 3, 1948

SUBSCRIPTION \$2.00 PER YEAR

## Former Gleichen Boy Accident Victim

Peter Boos, son of Mr. and Mrs. T. Boos of Calgary and grandson of Mr. and Mrs. Peter Kelly and Mr. and Mrs. W. Boos of Gleichen, died in a Calgary hospital Saturday afternoon a few hours after a boy he was riding on a Bowers Bantam collided with a semi-trailer oil truck.

Peter was born in Gleichen but was well known about town. He lived here until several months ago when his parents moved to Calgary. He had been riding a bicycle since time before the accident in honor of his birthday. Gleichen's first hearing of the accident over the radio at that hour broadcast. Mr. and Mrs. P. Kelly were listening to the news and heard the announcer tell of the accident. They left immediately for Calgary.

The Calgary Herald in reporting the accident spoke as follows: "According to reports of the accident Peter Boos, 12, and his brother, Thomas Thomas and William Saunders, were riding single file and just as the gasoline truck driven by G. C. McLougall was passing, Boos drew abreast. The bicycles collided and Boos was thrown into the side of the truck.

"Boos' companions said they did not see him fall under the truck. He was taken to the general hospital by a passing motorist.

Peter is survived by his parents; one sister, Wandy; and his grandparents in Gleichen. The funeral takes place today in Calgary with Rev. H. Upton, who several years ago was in charge of Gleichen United Church, officiating.

The crowds have been in convention at the river. Roll call was at dawn. With the first glint of light, the sergeant-at-arms, who had been sent through the woods and across the prairie, blew a summons to the priests. Priests who "would protest against the irksome discipline while they obey it. In the growing light they fly from all directions with ravenous gabbledaws at the bait to the assembly. In the humans in convention, they conduct the first business of the day by all talking at once. It is sometime before the presiding Grand Highest Crow is able to control the meeting by calling one or two others throughout the gathering. The meetings adjourn for early breakfast as soon as the warmth of sun lives up the bugs in the pantries. With a few minutes' rest from the "sweat losses" "up-and-up" is "clear clean clear!" the throng awakes across the prairies silent in appreciation of delectable food. After breakfast the delegates flock to hear the day's program. The most interesting discussion of who will go where, they are off in little groups to enjoy the hospitality and beauty of the country side. Returning at sunset, they hold a brief noisy session and then are off to the annual auto trip to the south before returning home for nesting. On the day they leave, the chairman, unable to establish order, to make himself, and the clowns, give up a digest and have a lot of fun in the south with the rabbits hard behind him squalling their protests at his unseemly haste and challenging him to call a election.

## An English Journey

By Walter Legge representing the Canadian Weekly Newspapers

The guide pointed out some of the gaudy robes of special interest. One represents a fox preaching in a friar's gown from a pulpit, with a cock serving as a clerk, presumably intended to ridicule the mendicant preaching friars of whom the canons were notorious. Another is a friar who is a gossiper, with back turned while a dog licks a cauldron clean.

The series of nearly 40 misericards, or miserere seats are also of special interest. One of them is the one in the country of the friars about 1250 with typical carvings of that period.

Others show, an angel being tempted, an emaciated dog gnawing a bone, the Devil on a woolsack, a contortionist, a fish and many such details. Close by is a misericord which is a reminiscence of a Norman Castle built in 901, with walls 9 feet thick. The brief history of the castle shows that it was built in 901, King Stephen, bashed here

## News Items of Local Interest

The antelope hunters, Howard Warner and Bunk Menard had very good luck in the Cypress Hills. They bagged their quota.

Ted Krause is up in the Peace River country. He shipped a carload of tractors up there and is now buying selling them.

A shower in honor of Miss G. Corbin, whose marriage will take place shortly was held at the home of Mrs. N. McMillan.

The annual U.F.W.A. dance held at the Gleichen Hall on Friday evening was attended John Cunningham held the winning ticket for the quilt and Bill Blaney, Jr. was the lucky boy in the cushion draw.

Mrs. N. A. Riddell has returned

home after visiting her mother and other relatives in Bettineau and Souris, N.D. Mrs. Riddell also visited relatives in Regina and Avonlea, Sask.

John Cunningham left for his home in the States last Sunday. He has been here for some weeks visiting the relatives whom he had not seen for a couple of decades.

The members of the Canadian Legion will stage their annual get-together on Thursday, November 11 in the Gleichen Community Hall. This is the first dance to be held in the hall for sometime and should be largely attended.

Uphill school teachers attended the school teachers convention in Calgary last week and as a consequence the pupils enjoyed several days holidays.

Miss Rachael James returned Sunday after a few weeks holiday spent in Vancouver. Miss James thinks Vancouver is a fine city and would like to live there.

Mr. and Mrs. E. Etheridge have gone to the States for a visit and a holiday. They expect to be away for three months.

Lawrence Woods, wife and family of Calgary were guests at the former's parents home here for a few days last week.

The U. F. W. A. and the U. F. A. meetings were held at the home of Mr. and Mrs. Jack Wilson last Thursday with eighteen members and three visitors answering the roll call. Halloween's Prank. Minutes of the last meeting were read and also the correspondence. A letter was received from Mrs. G. Yule who was in the U. F. W. A. which she had written for the flowers they had sent her. The secretary was instructed to write the Standard organization thanking them for the lovely time the members had spent there. Mrs. Wilson showed some fun swimming match which proved to be very hilarious and was much enjoyed by all. The next meeting will be held on November 11 at the home of Mrs. Geo. McLean. The lunch committee will be Mrs. L. L. Lyle, Mrs. E. Ferguson, Mrs. McLean and Mrs. Walker - committee.

Ed. McCreary, a popular young ventriloquist and his friend Friday will be the program of folk songs and music, at 4 p.m. Listeners can hear him in another program, too. Sundays, when he sings tunes from the movies old and new in the series called Songs From the Movies.

Continued on back page

children thoroughly enjoyed themselves visiting neighbors and pulling such harmless stunts they could think of. But some of the older boys and girls—who have reached the half way span in life—had some fun too. Sunday afternoons Ed Menard found some of his residents property in front of his place of business. He was chagrined, didn't say very much but did a lot of thinking. Monday morning the property had disappeared. In the words of Ed Menard "back home is great fun—the hilarity that comes up and down the street for directly across the street, in front of Bob Brown's store on the sidewalk sat a building that had been brought in from the country. We haven't seen Bob so don't know if he was chagrined or not."

## Remembrance Day Services at 10.15

The Canadian Legion is sponsoring a Remembrance Services at the Community Hall, Thursday, Nov. 11, at 10.15 with a service at the cenotaph at 10.55.

The local clergy, Rev. Pringle, Rev. Corbin and Rev. McLean will be conducting the services.

The united choir will be attending and render an anthem.

Everyone is welcome.

Said the scientist to the druggist: "Please give me some prepared monacetate of sallycile acid." "Do you mean aspirin?" asked the druggist. "That's right! I never can think of that name."

## THE COMMUNIST WAY

Not long ago one of Canada's political leaders discovered that many communists had found their way into

to his party and were making their influence felt in the party councils. He declared his intention of purging them from the party. But that was not easy, for he had no way of knowing who were communists and who were not. At that time a communist was asked why he continued to support a party that did not want him, and whose philosophy he did not accept. His reply was amazingly frank and simple. "I will come to you part that you like, and leave the rest to you to make use of them. We are not concerned with their philosophy. Our aim is to have them adopt our tactics; to sit in, to illustrate our policies, to teach us. As long as we can keep them that way we will be preparing the ground for communism, and if they should get into power, we will know how to ditch their amiable leaders and take control ourselves."

Here is a column to our democratic like of which it has never mentioned. Stated briefly it is this: create such distrust and confusion in the minds of the people that they will not be able to think clearly, will not listen to reason, and will become so gullible that those who know how to handle them.

The success of democracy depends on the understanding and the loyalty of its citizens. The success of the communists in their efforts to destroy democracy depends on the gullibility and dishonesty they can create among its citizens. If they succeed in fooling us, they may succeed in ruling us.

We are strongly of the opinion that this is the way to rule us in the future. It will be ruled by the man who can do it. Are we going to allow the communists to do it? The answer rests with us as individual citizens. If we contemn their kind of tactics in any political party we are playing into their hands and helping them to win.

An American psychologist claims that unhappy marriages result from husbands being over-protective and over-indulgent, and that wives are

# I'm keeping the Power Flowing

## ALBERTA'S NEEDS ARE GOING TO BE MET . . .

I've got two main concerns right now, and both of them are with the people of Alberta. First, I'm determined to see that the homes and industries I'm now serving are assured of continuous unbroken service, and secondly, I want to expand my present power lines to as many more rural areas as I can.

Naturally, that means plant capacity must be kept ahead of the demand and that is why I'm going ahead as fast as possible with the Spray Lakes project because it will add 100,000 h.p. to present capacity.

Other places on this continent are having to ration power because of insufficient capacity. That has not become necessary in Alberta, nor will it, if our present expansion plans can be kept to schedule.

## A Successful Year

AT THE CONCLUSION OF ANOTHER tourist season the Dominion Travel Bureau has reported a very successful year in this growing and important business. The number of tourists from the United States, the number of Americans who visit Canada, are always an indication of the volume of tourist traffic. This year it is estimated that 4,550,443 American cars entered Canada, which was considerably more than the number which entered in the same period in 1947. The amount of United States currency spent by tourists here this season is also year by year making gains, but it is noted that it will exceed by at least ten per cent. the 235 million American dollars which were brought into Canada during the holiday season last year. This aspect of the tourist business was considered especially important this year because of Canada's low reserve of United States funds.

### Increases In Most Provinces

Disastrous floods, which swept British Columbia in the early summer, and extensive forest fires in northern Quebec and Ontario were believed to have been responsible for the decrease in tourist traffic in these areas, which normally attract many thousands of visitors. At a Dominion-Provincial tourist conference held in Ottawa in October, it was reported that there was an increase in tourist trade this year of from one to twelve per cent. over 1947. British Columbia had the largest increase, the tourist season being up 12 per cent. less than in the previous year. The Dominion Tourist Bureau reported that as many as 4,200 inquiries were received in one day regarding holiday resorts in Canada, and more than three million pieces of literature were mailed out by the bureau this season.

### Land Of Great Natural Beauty

Roads and accommodation are always closely associated with discussions concerning the tourist business. In the past there has been considerable criticism of the facilities available in some parts of Canada, but the tourist business has been growing, fewer complaints and a greater number of letters of appreciation in this connection. Great progress has been made in improving highways and in raising standards of tourist accommodation, but there is need for further effort in building up this business which has proved to be a most profitable one for the tourist. The tourist business is not yet fully developed, but such a road would be a great asset both in attracting tourist traffic and for the country generally. It is to be hoped that the progress which is now being made in building up the tourist industry will continue for few countries have greater natural beauty than Canada and it is fitting that it should be enjoyed by visitors from other lands as well as by Canadians themselves.

### Hundreds Of Geese Land On Airport

SPRINGFIELD, Mo.—Hundreds of Canada geese recently buzzed Springfield and landed on the airport, landed without instructions from the tower, and refused to leave. Commercial airfares were able to land only one plane, the rest being big geese on the glistening runways. The geese apparently believed the airport was a natural landing place and landed around the municipal field, moving out of the way only on threat of being flattened by trucks. None made a move to fly away.

Airline pilots said the geese, which weigh from 10 to 15 pounds, could break a propeller or even damage a wing.

Everybody was worried except the geese. They rested on their federal immunity from gunfire. It is against the law to shoot the big birds at the rate of more than one a day per hunter, and only in season.

### SAFETY FIRST

Here's a safety tip when putting furnace or stove pipes in position. After fitting the lengths securely to the furnace or stove, lay the pipes and make a circle around the place where the slightly expanded ends of each length fit on the previous one. If the pipe is too tight, the pipe starts pulling away from each other, the chalk marks will show this movement.

If this small safety tip is adopted, a casual glance at the pipes at any time will show whether the sections are tight or loose, and whether all is "safe and sure."

There is danger in tightly fitting stove and furnace pipes. Escaping fire gas is probable; a disastrous fire may be even in the making.

### NEW NIGHT CLASS IS BEING OFFERED

TORONTO.—How to keep household equipment in good order is the theme of a new night class for women at the Central Technical School. The course, given gratis, is designed to come home to a job of oiling the washing machine or repairing the ironing cords.

### FIVE-FOOT PUMPKIN

PONOKA, Alta.—A 57-pound pumpkin, five feet in circumference, was grown by Chris Schmidt of the Seaside district, near this southern Alberta town.

It is said that more girls knit in New England than in any other area in the United States.

TURKEY REPRESENTS A GOLD MINE IN THESE DAYS OF SOARING INFLATION.—Symbol of relative prosperity is the turkey which is becoming noticeable absent from the public table. The price of meat and fowl have lessened the sales of these products, so that most holidays are being celebrated now without the customary fowl on the dining-room table. At the Hotel and Cigar Bar of Nibleton, Ont., had a small gold mine in their hands.—S.N.S. photo

### FUNNY And OTHERWISE

The teacher wanted to impress on his class that there was nothing a man could not do if he put his mind to it. "I can do anything," he said to differ.

"Well, said the teacher, "tell me the last thing that it is."

"You try to strike a match on a piece of soap," was the answer.

Father: "Your teacher says he can't teach you anything, Bill."

Bill: "I always knew he was good."

"Sometimes," said the mistress, "it would be necessary for you to hold him by the hair."

"Understand, madam,"

"I understand, when he's had one."

"My wife doesn't understand me, does your?"

"Don't know that I ever heard her mention it," he said.

A forest ranger in Arizona requested that an Indian chief request his horse to cross a trail. If the Indian did not start pulling away from each other, the chalk marks will show this movement.

If this small safety tip is adopted, a casual glance at the pipes at any time will show whether the sections are tight or loose, and whether all is "safe and sure."

There is danger in tightly fitting stove and furnace pipes. Escaping fire gas is probable; a disastrous fire may be even in the making.

Customer: "I'd like a dollar dinner, please."

Waitress: "Yes, sir—on white or rye, sir?"

EXPERT OPINION ON  
WOMEN'S FOOTWEAR

TORONTO.—Dr. Robert Smith, Harvard chiropodist, says that shoes with two high heels are ruining the feet of Canadian women.

"If you can live like an Indian, the better," he said, "but you can't wear them."

"But if you have to live in the city, make it Oxford or loafers. No woman should wear a heel higher than one and one-quarter inches. If she does, her whole foot structure will be wrecked."

THE TILLERS

AT LAST HUNK IS GETTING OUT OF GAS MESS. LORNA, WELL, I INVITED HIM TO GO FOR A RIDE WITH HIM TONIGHT!

IT HAPPENED NEAR THE TILLERS.

YOU'LL HUNK, I TALKED TO YOU. I KNOW YOU FEEL THE TILLERS BECAUSE WE LEFT!

### Chicken Confuses Manitoba Farmer

WINNIPEG, Man.—Amos Vince of Ashern, Man., is very confused.

The cause of his confusion is a chicken that won't make up its mind whether it wants to be a male or a female.

In a letter to the Manitoba Agriculture Department, Vince said that he recently received 12 Leghorn cockerels from the hatchery. However, one of the cockerels was laying eggs. After laying a dozen eggs the pullet decided that there was no future in eggs and proceeded to lay a dozen chicks.

In less than three days the bird blossomed into a full-fledged cockerel.

Manitoba poultry experts say that the occurrence is rare but has happened before. They say that the bird, which is male, has never become a female but females can become males.

### Town Reverts Back To Village

REGINA, Sask.—Twenty miles west of Moose Jaw is one of the oldest towns in Saskatchewan, and has lost its "growing pains."

A diverse population has resulted in the town council's application to the provincial government for permission to revert to the status of a village.

As far as so far, Jan. 1, 1949, the town of Mortlach will officially become the village of Mortlach.

According to the 1941 census, according to the quinquennial census, was given at 235. The population is down from that figure now.

### Finest Quality Tea

"SALADA"  
ORANGE PEKOE

In New Mexico there are more than 2,000 miles of trout streams.

It's new...  
right there when you need it

Now—for extra-fast baking—it's new Fleischmann's Royal Fast Rising Dry Yeast. No need to keep it in the icebox—it stays fresh in the cupboard for weeks—right there when you need it. Just dissolve according to directions. Then use as fresh yeast. IF YOU BAKE AT HOME—you can always keep a large supply ready for "hurry-up" baking—more delicious baking results. Order Fleischmann's Royal Fast Rising Dry Yeast from your grocer today.

## OUR WESTERN TOWNS

## MOSSBANK, Sask.

"Biggest Little Village In The South Country"

—Haven For Hunters  
—Opens 20-Bed Hospital

The new modern 20-bed Sutton Lake Johnstone Union hospital, after almost two years of work preparing and moving, is officially opened with a staff of two doctors and three nurses.

The first thing seen of the Mossbank site was a trail south of the townsite which was called the Wood Mountain Trail. Until 1906 the official post office was not open, but by 1907 the year was surveyed and cut the sites for homesites and in 1907, the first year that anyone settled in this region. Four men, Robert Jolly, now deceased, Alec Jolly, still in his homestead, John Clarke, now living in Mossbank and Robert Walker now residing at Rainy River were the first to settle this district upon asking John Clarke to interview them about the district he replied, "There was a fire here to the halfway mark towards Moose Jaw." Later that year many more located in these parts with as many as 20 men in one wagon coming through while others came by horseback and some even walked.

In 1908 the first post office was established by Robert Jolly as the postmaster. It was named Mossbank by a list of names the Inspector of Posts had to choose from, Mossbank being on top of the list. So Mr. Jolly took the first name, Mossbank.

The C.N.R. was built through in 1913 but a store had already preceded it. It was built near the C.N.R. station.

At the time the war business started to improve, social activities

Mossbank's Community Hall, a building of 40x100 feet with a full basement, serves the district as a banquet, recreation and dance hall. It has a balcony on three sides of the building.

station in the fall of 1912 with Lawrence Quinn, who was born in 1878, and who later became the townsite of Mossbank was built.

The present townsite laid out in 1913 and the buildings were put up a year later. The C.N.R. was built through 1915 and the north side called Ryceray by the railroad. This caused all the business to go to the south except for Lawrence Quinn, the first storekeeper, to move their stores to Ryceray. A month later the Village had put up a collection to move them back.

In 1917 a fire wiped out the west side of the townsite and the stores being analytical ruined. It ran its course in 1922 and 1923 as a memorial to the soldiers who died overseas, trees were planted along the streets of Mossbank.

Through this time until 1920 Mossbank grew to a population of about 500. Surviving the hunger years of 1920, 1921 and 1922, the townsite grew to 450. In 1926 Mossbank received an unexpected boost when No. 2 Building of the Saskatchewan School of Agriculture was opened 4½ miles east of Mossbank bringing with it a population of 2,200 men, who it was operating at full capacity.

Business was good to them and every available room and building was rented out. From that time till 1945 the population ranged at about 1,150. Business was

DOES  
INDIGESTION  
WALLOW YOU  
BELOW THE BELT?

Help Your Digestion - Pay The Skin Of Relief That Helps Make You Radiant To Care

More than half of your digestion is done below the belt. That's why you feel lousy when indigestion strikes, try something the little people eat below the belt below the belt.

What you need is Carter's Little Liver Pile to give needed help to those "little people" below the belt.

This one Carter's Little Liver Pile before and after the meal will help you digest your food. They help take up a larger share of the work of the stomach and intestines. All this is done without what you have to pay. Nature's own way.

They help you feel better from your head to your toes. They help you digest your food.

Little Liver Pile from your druggist - \$2.50

## Western Briefs

MIDDLE, Sask. — The creamery has been closed here after 20 years of service. The reason is lack of business due to continued switch from mixed farming to straight grain farming. \*

WINNIPEG. — The Manitoba power company will extend electric power to 5,000 farms during the year and plans to add an additional 5,000 farms each year until the main settled areas of the province in the vicinity are serviced, stated Hon. D. L. Campbell, minister of agriculture for Manitoba. \*

SASKATOON. — Steps designed to increase the variety and quantity of vegetables will be taken to be imported through the northern Manitoba port of Churchill are being planned by the Hudson Bay Route Manitoba. \*

EDMONTON. — Alberta Public Works Minister D. B. Macmillan said the key had been found to unlock millions of gallons of oil in sandstone beds in the Peace River area which winds through northern Alberta.

He said the government oil-extraction plant at Leduc, Alta., 200 air miles from the oil field, had produced 400 barrels of oil daily in the test feasibility of extracting oil from the sandstone.

CEYTON, Sask. — Although the total rainfall was 647 inches this year, where scientific care had been given summerfallow the previous year, crops ran as high as 20 to 30 bushels per acre in the Ceyton district.

VANCOUVER. — A tunnel crossing of the Fraser River between Woodland Landing and Ladysmith will be the only one of its kind ever to be launched from the newly-formed Lower Fraser Valley Crossing Improvement Association. \*

WINNIPEG. — Missing for two days, a 16-year-old girl was found dead by her parents. The young girl was found as a patient in a city hospital—minus her tonsils. She had been told by doctors to go to the hospital, but hadn't told her parents for fear they would forbid it.

CHILLIWACK, B.C. — The B.C. Electric plans to develop a power plant at Jumbo Lake, 100 miles east of the city, according to Mr. R. McPhee, manager here. The plant will be on the site of the old Jumbo mine, which closed in 1943, when he and C. C. Wyldman came back from the Far East.

The Lake Johnstone Star which covers a large district with its circulation, was originally printed at Lethbridge, Alta., and in 1919 moved to Mossbank. After Mr. Wyldman's passing, the paper was taken over by C. C. Wyldman, who died in 1945, when he and

the Lake Johnstone Star came into the hands of Mr. Ewald K. Wuschke, who became the youngest editor in the province at age 21.

The surrounding country is definitely a wheat growing country, winter wheat being grown and mixed farming is becoming general. Mossbank has a high power line to provide lighting and other facilities. A bank, two general stores, two hardware stores, two butcher shops, two beauty parlors, one theatre, two gas stations, a drug store, a grocery store, cleaning and pressing establishment, two barbershops, shoe repair shop, drug store, a restaurant, a hotel, a theatre, with all the premises and splendid accommodations. Main Street has a variety of decorative signs, and the dealerships and three wholesale and retail oil depots, bus station and

bus service, two railroads. Post Office, public and high school, the High School Unit from the airport, a school for the blind, long and short last year by the school six students and employed.
